ISRAEL CAMPOS ROMERO

Tel: (52 55) 47205365

e-mail: israelcampos36@gmail.com

Location: CDMX

PROFILE

Dedicated and proactive physics student currently in the five year at the Science School at the National Autonomous University of Mexico. I am interested in improving and applying my knowledge as a scientist. I like to work on developing artificial neural networks and several AI methods to solve problems with the best performance and efficacy.

EDUCATION

National Autonomous University of Mexico | Science School 2020 - present Undergraduate five (last) year

Physics student National School of Languages, Linguistics and Translation | UNAM 2020 – present English Student

SOFT SKILLS

- Capacity of teamwork Sociable and empatic
- Ability to explain and teach different groups of people
- Responsable with assigned tasks
- Dedicated with a particular interest in details
- Ability to solve complex problems
- Diligent at work

EXTRACURRICULAR COURSES

Python programming
Course with certificate intermediate level of Python programming

Data Science in Python
Course with certificate in Python programming applied on Data Science field

R programming
 Basic knowledge of R programming language

TOOLS

TensorFlow is useful to develop ANNs

ScikitLearn is used in the Data Science Field

Matplotlib, Numpy, Pandas and some libraries of Python

Experience using Excel

SQL is useful to work with data basis

Power bi to analyzing data
